

# SOEN 487: Web Services and Applications

## Instructions

Registering for Microsoft Azure

February 19, 2021

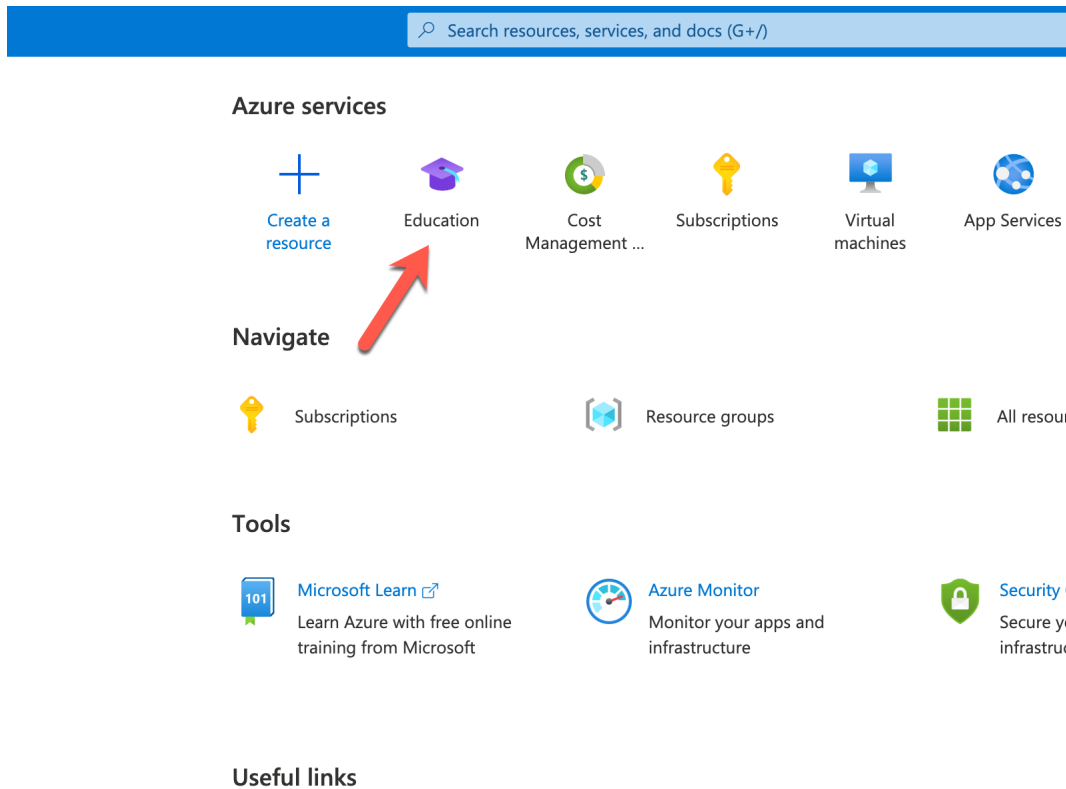

### 1 General Information

The purpose of this guide is to setup an account for Microsoft Azure and obtain the free credits offered by Microsoft, to be used for a later tutorial. The credits are valid for one year so you can experiment with the Azure Portal on your own as well.

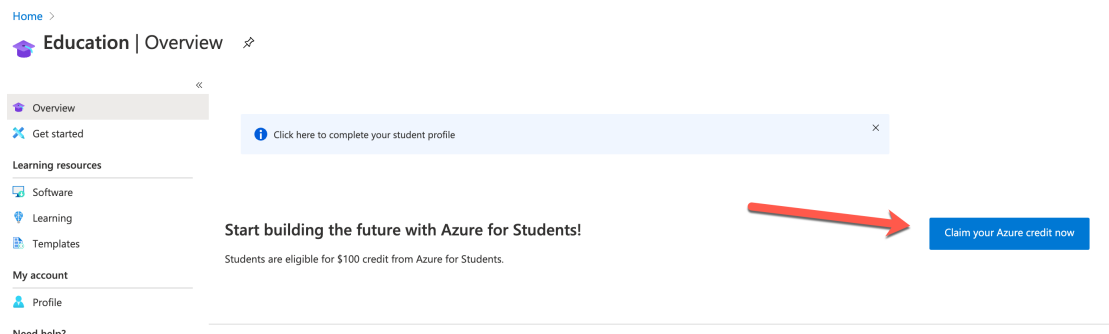

### 2 Microsoft Azure Setup

Here are the steps that you need to follow to setup your Microsoft Azure Education account:

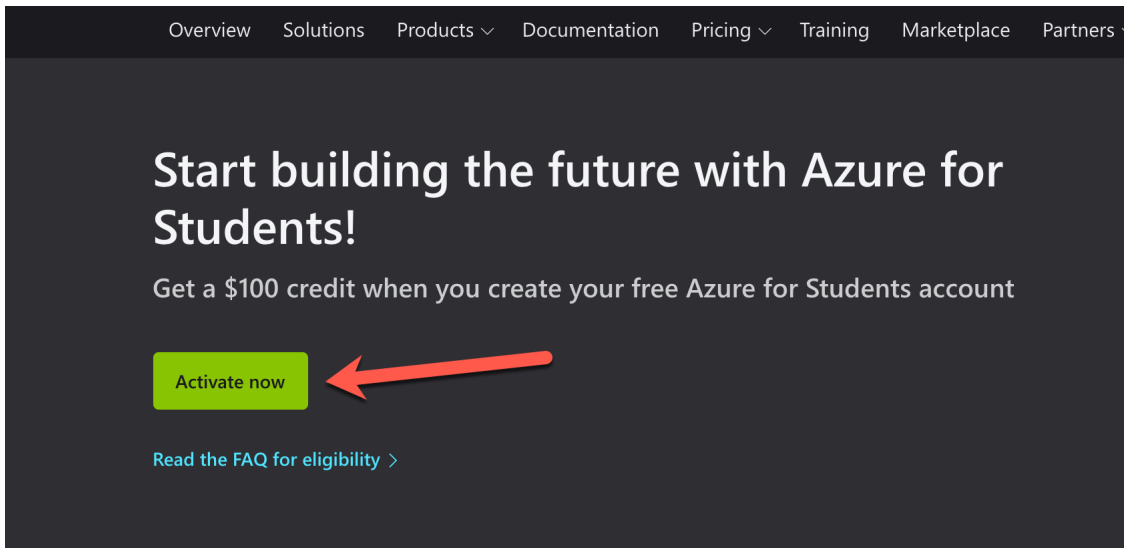

- Visit the url below and follow the instructions in the **For students:** section.  
`https://www.concordia.ca/it/services/microsoft-azure.html`
- Once you are done you should be taken to the Education Hub. If you are not, click on **Education** from the homepage.

- From there, click on **claim your azure credit now**.

- Next, click on **activate now**. After the activation is done, you can check the Education | Overview page to see if the credits were added successfully.

### Azure credits

**Student offer: \$100**

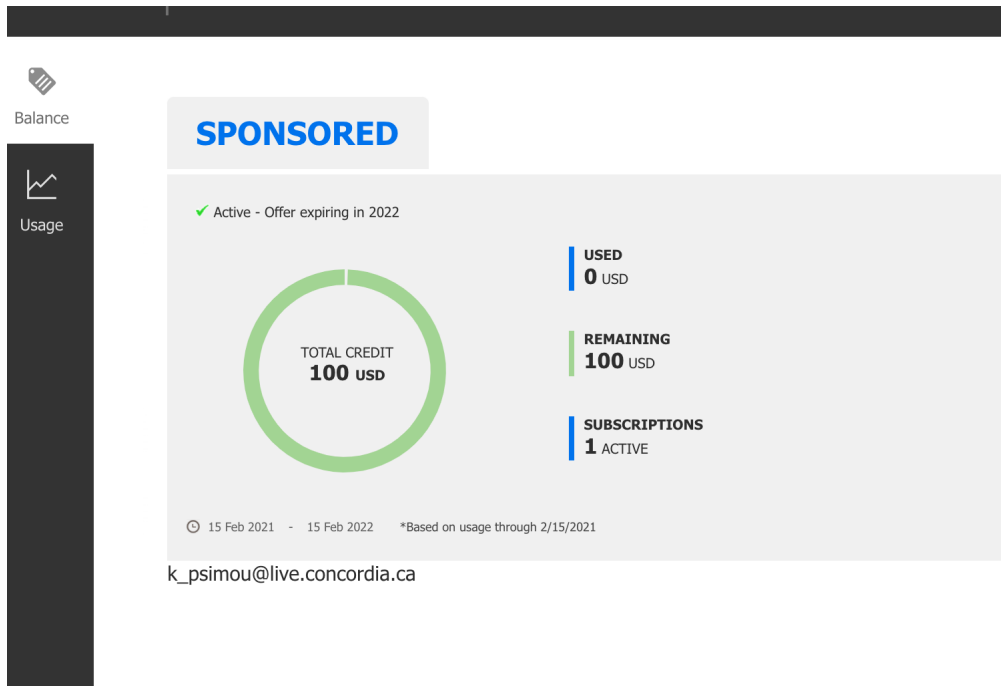

\$100 unused credit expires on February 15, 2022

To view usage details, visit [www.microsoftazureponsorships.com](http://www.microsoftazureponsorships.com)

- You can also visit the following URL to check the status of your credits.

<https://www.microsoftazureponsorships.com/Balance>

If everything went well, you should now be able to use the Azure Portal freely.
